EDUCATION

ST.MARY'S COLEGE OF BANSALAN

- Bachelor of Science in Information Technology

SUMMARY

As a passionate and detail-oriented IT graduate, I bring a strong foundation in web development, programming, and problem-solving. With hands-on experience in designing responsive websites, building user interfaces, and working on real-world projects, I am committed to creating functional, user-friendly digital experiences. I excel at working under pressure, communicate effectively in team environments, and follow best practices to ensure clean, efficient, and secure code

WORK EXPERIENCE

IT INTERN – BPO BANKING OPERATIONS

- Assisted in IT support tasks including system checks, troubleshooting, and technical documentation
- Handled data entry, client records, and secure processing under supervision
- Observed and supported banking process workflows within BPO environments
- Practiced professional communication, confidentiality, and customer support principles
- Gained experience in a fast-paced, high-security setting involving finance and technology
-
